### Production Plan:

Two middle schoolers, a Korean boy and a Japanese girl, exchange letters after a brief encounter. Their affection for each other begins to grow, but the innocent crush is cut short when the Korean boy does not answer a letter from the Japanese girl. Why he couldn't do so is a mystery, but 16 years later he receives a reply for that letter he couldn't send. More secrets unfold as he travels to Japan, creating a thrilling story.

The Korean and Japanese characters will communicate unique aspects of each culture to the viewers.

Their pure love, crossing national borders and time, will provide a story that viewers of any nationality can immerse themselves in. We believe that this project is a great fit for collaboration in investment, casting, and distribution in Japan and Korea. The crew for lighting and art departments have already been selected. We will take additional steps to develop this project with coproduction support.
