Must-see display of the world's first : Penguins in the Sky

This aquarium is an urban style high-rise facility built on the concept of "oasis in the sky". Composed of areas like "Ocean Journey" and "Waterfront Journey", the symbolic feature is the outside area "Sky Joumei". "Penguins in the Sky", the world's first display of penguins as though they're flying across the city sky, and "Penguins in the Grassland" displaying a scenery in untouched nature, will give you a whole new experience. Do not forget to enjoy watching "Sunshine Aqua Ring", where sea lions swim overhead as if they're flying in the sky as well!

A stimulating "experience-based observatory"

Not just an observatory where you can get a view from, but an observatory that you can experience to the fall — along with enjoying the fantastic view from 251m above sea level, this observatory offers visitors virtual reality (VR) technology and latest 4D experience! "SKY Trampoline" to enjoy a sense of free flying in the sky, and "INFINITY SCAPE" to feel as if you are inside a kaleidoscope are also very popular. A "Playground Observatory" is given new life by the hybrid combination of great view and technology.
